Dear Mr. Petrov, *Frank*

Now that the new Old Dominion Aquatic Club site has been 'live' for a few months, I just wanted to again express our collective admiration and gratitude for both your professional work in building and hosting the site, and your personal enthusiasm in identifying and meeting our needs.

As a small, non-profit youth swim club, we don't have the financial resources of most small businesses. What we do have, however, is the need for a website that publicly informs families and swimmers considering membership of the breadth and quality of our programs, yet also allows the club to conduct intra-team communications, billing, meet sign-ups, and the like in such a way that each of our members may remain securely connected on their unique and independent schedule(s).

Your ability to understand our requirements, and then to design and build an affordable solution, has produced a website that has not only fulfilled our wishes, but has also drawn unsolicited praise among the swimming community in Southeastern Virginia. Our membership is delighted with your work, and we are all quite proud of the 'first impression' that the website conveys to those outside the club...we believe ODAC is a top-notch club, and now we have a top-notch website as our face on the Internet.

On behalf of our coaches, our families, and our swimmers, thank you so much!

All the very best, and with warmest regards,

A handwritten signature in black ink, appearing to read "W. Johnson", is written over a horizontal line.
